

FLOOD READY

Three calm steps before the water rises

USE THIS PAGE

Share one simple plan with your household. Keep it visible, review it together, and follow official local alerts.

01

BEFORE THE RAIN

Pack, plan, protect

1

Pack essentials

Water, medicine, torch, radio, chargers, and copies of key documents.

2

Choose two routes

Plan a main exit and a backup route to higher ground.

3

Protect documents

Seal important papers in a waterproof bag you can carry.

02

WHEN WATER RISES

Move early, stay informed

1

Follow official alerts

Use trusted local channels. Do not rely on forwarded rumors.

2

Avoid moving water

Never walk, cycle, or drive through floodwater.

3

Help safely

Check on neighbors only when doing so does not put you at risk.

Household meeting point

Primary location

Backup location

REMEMBER

Go to high ground

If officials ask you to leave, take your emergency bag and move before routes become unsafe.
